Experience

Hello Alice / Senior Product Designer

May 2020 – December 2022

I worked directly with Leadership and the Executive Team to design and develop new digital product experiences and improvements and provided guidance to other designers on work delivery. I contributed directly to hiring and building the design team, I devised a research process for our agile environment, and I adapted my knowledge and skillset as the company shifted into the financial services space.

ExxonMobil / Lead UX Designer & Researcher

November 2019 – May 2020

I worked directly with engineers, and operators to collect and analyze large, highly-technical data. I independently created innovative, research-based solutions to tough technical problems; I developed domain knowledge while working closely with development and project teams. I focused on solving complex IT & business problems at manufacturing facilities around the world.

P97 Networks / Lead Designer

March 2019 – November 2019

As Design Lead, I managed a team of 7 across UX, UI, Visual Design, client engagement, prototyping, and specs while also directly contributing to multiple projects. By planning UX improvements driven by B2B clients, scoping the improvements with internal teams, and executing them through to production, I had a direct impact on PetroZone's product.

Mindful / UX Designer, Product

2015 – 2019

As a UX Team of One, I was responsible for auditing, researching, designing, and implementing the organization's portfolio of Callback software. I independently worked on improving the enterprise SaaS workflow by implementing UX recommendations and updating visual components from the legacy structure.

Expedia Group / UX Designer, Mobile

2013 – 2015

Worked directly alongside Senior UX Designer on the mobile product team at Vrbo to design and launch native iOS and Android applications for customers and partners. I was responsible for crafting the foundational patterns, components, and documentation for engineering to deliver a high-quality experience across native platforms.

Mutual Mobile / Senior Visual Designer

2011 – 2013

Worked with teams of up to 30 people, while mentoring junior designers and managing visual standards on several projects. Created prototypes for client engagement, facilitated user research. Worked closely with interaction designers, developers, QA engineers, project managers on several high-level clients.

Education

Lone Star College, North Harris

2004 – 2007 / Digital Communications
